EDUCATION

Jagannath University, Jaipur **2023 – Present**
Bachelor of Technology in Computer Science and Engineering *Jaipur, Rajasthan*

R.L.S.Y College, Bettiah **2020 – 2022**
*Intermediate (BSEB) - **73.6%*** *West Champaran, Bihar*

Kamal Prasad H.S Inarwa Bazar, West Champaran **2018 – 2020**
*Matriculation (BSEB) - **78.6%*** *West Champaran, Bihar*

COURSEWORK / SKILLS

- DBMS
- Data Cleaning and Wrangling
- Data Visualization
- ETL Pipelines
- Business Intelligence (BI)
- Data Storytelling

PROJECTS

Customer Shopping Behavior Analysis | Python, PostgreSQL, Power BI **MAR 2026**
– Automated an ETL pipeline (Python/PostgreSQL) for 50K+ records, saving 40% manual time.
– Analyzed purchasing trends via advanced SQL to extract insights across 4 product categories.
– Built a Power BI dashboard uncovering a 73% non-subscriber gap for targeted marketing.

Telecom Customer Churn Analysis | Excel, SQL, Power BI, DAX **MAR 2026**
– Cleaned and modeled 100K+ telecom records via Excel & Power Query for lifecycle tracking.
– Identified top 15% high-risk customers using SQL & DAX based on tenure and churn rate.
– Designed a Power BI dashboard for high-risk accounts, aiding a 10% churn reduction strategy.

Credit Card Financial Dashboard | SQL, Power BI **APR 2026**
– Developed a real-time Power BI dashboard tracking 10K+ daily SQL database transactions.
– Resolved data discrepancies using manual filters, ensuring 100% reporting accuracy.
– Delivered key financial insights to stakeholders, optimizing performance tracking by 25%.

INTERNSHIP EXPERIENCE

Apex Planet Pvt Ltd **DEC 2025 – FEB 2026**
Intern: Data Analytics *Remote*

– Cleaned and structured complex datasets using Python and Excel, improving data processing efficiency by 30%.
– Created insightful business metrics and recommendations to support data-driven decision-making.

Cisco Networking Academy **JUL 2024 – AUG 2025**
Intern: Python & Cybersecurity *Remote*

– Developed Python automation scripts to streamline operational workflows, reducing manual task time by 20%.
– Implemented robust security protocols ensuring 100% compliance with data privacy and ethical handling standards.

TECHNICAL SKILLS

Languages: Python (Pandas, Matplotlib), SQL
Developer Tools: VS Code, Anaconda-Jupyter Notebook, Pycharm
Technologies/Frameworks: Advanced MS Excel, Power BI (DAX), Power Query, PostgreSQL, MySQL, Git, GitHub

ACHIEVEMENTS & CERTIFICATIONS

• All India Rank 1: Essay/Article Writing, National Panchayati Raj Day (2025)
• Team Leader: Smart India Hackathon 2025 (Developed an innovative government technology solution)
• Python for Data Science – Udemy
• PCAP: Programming Essentials in Python & Introduction to Cybersecurity - Cisco Networking Academy
