PROFESSIONAL SUMMARY

Results-driven Data Analyst skilled in Python, SQL, Tableau, Power BI, and Snowflake. Experienced in performing exploratory and statistical data analysis, building interactive BI dashboards, and architecting robust data pipelines. Combines strong technical expertise with exceptional communication, leadership, and analytical thinking to transform complex datasets into actionable business strategies.

TECHNICAL SKILLS

Languages & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Exploratory & Statistical Data Analysis

Data Visualization & BI: Power BI, Tableau, Advanced MS Excel

Cloud & Databases: Snowflake, PostgreSQL, MySQL

Tools & Version Control: VS Code, Anaconda (Jupyter Notebook), PyCharm, Git, GitHub

Core Competencies: Analytical Thinking, Cross-functional Communication, Leadership & Team Management

PROJECTS

Customer Shopping Behavior Analysis [GitHub Link]

- Engineered a robust data pipeline and interactive dashboards by processing 3,900+ customer records.
- Leveraged advanced SQL queries and statistical analysis to uncover a 73% non-subscriber gap and identified a $62K+ youth revenue segment, enabling targeted growth strategies.

Telecom Customer Churn Analysis [GitHub Link]

- Architected an interactive visualization dashboard utilizing Power Query and DAX to comprehensively analyze 7,000+ customer records.
- Identified a critical 52% early-tenure churn risk within Month-to-Month contracts and formulated data-backed retention strategies.

Pizza Sales Performance Analytics [GitHub Link]

- Designed a dynamic Power BI dashboard driven by DAX and complex SQL queries to efficiently process and visualize 48,000+ sales records.
- Delivered actionable insights regarding peak sales trends and top/worst-performing items, optimizing menu offerings and inventory planning

EXPERIENCE

XYlofy AI **APR 2026 – MAY 2026**

Intern: AI & Data Analyst Remote

- **ML & Explainable AI:** Built an ML pipeline on 590K+ records using XGBoost/LightGBM (94% ROC-AUC) and integrated SHAP, cutting manual audit time by 30%.
- **Live Dashboard:** Developed a high-performance Streamlit dashboard with Plotly, reducing real-time fraud screening latency by 40%.

Apex Planet Pvt Ltd **DEC 2025 – FEB 2026**

Intern: Data Analytics Remote

- **Streamlined** data processing workflows by cleaning and structuring complex datasets using Python and Advanced Excel, boosting operational efficiency by 30%.
- **Formulated** impactful business metrics and actionable recommendations using statistical analysis to support data-driven decision-making for internal stakeholders.

EDUCATION

Jagannath University Jaipur, Rajasthan

Bachelor of Technology in Computer Science and Engineering Expected Graduation: June 2027

Relevant Coursework: DBMS, Statistical Methods, Data Analysis, Data Warehousing.

CERTIFICATIONS

- Data Analytics Job Simulation -Deloitte Australia (Forage) [Certificate]
- Python for Data Science – Udemy [Certificate]
- Introduction to SQL & Power BI -DataFlair [Certificate]
- Python Essentials 1- Cisco Networking Academy [Certificate]

ACHIEVEMENTS

- All India Rank 1: Essay/Article Writing, National Panchayati Raj Day (2025) [Certificate]
- Team Leader: Smart India Hackathon 2025 (Developed an innovative government technology solution) [Certificate]
